

TerraLot — US Land Installment Sales Platform

Business & Technical Roadmap

VISION

Buy undervalued US land at county tax auctions (50-75% below market), sell globally via installment plans (12/24/36 months). AI-powered parcel discovery, automated payments, self-sustaining portfolio.

PHASE 1: FOUNDATION (Week 1-4)

Goal: Legal structure + first 3-5 test parcels

Business Setup

- ☐ Open Wyoming LLC (\$100 — privacy + no state tax)
- ☐ Open US business bank account (Mercury or Relay)
- ☐ Stripe account for recurring payments
- ☐ Land contract template from attorney (\$500 one-time)
- ☐ EIN number from IRS (free)

First Acquisitions

- ☐ Target states: Texas, New Mexico, Arizona (cheapest entry)
- ☐ Budget: \$5,000-\$10,000 for 3-5 parcels
- ☐ Source: County tax deed auctions, tax lien sales
- ☐ Due diligence per parcel:
 - Zoning (buildable?)
 - Road access (Google Maps + id.land)
 - Flood zone check (FEMA)
 - Back taxes / liens (county records)
 - Utilities proximity
- ☐ Close purchases, record deeds

Platform MVP

- ☒ Landing page with listings (DONE)
- ☒ Admin dashboard (DONE)
- ☒ Financial analytics (DONE)
- ☐ Stripe Checkout integration (down payment + recurring)
- ☐ Customer portal (payment history, contract download)
- ☐ Email automation (welcome, payment reminders, receipts)

Budget: ~\$7,000-12,000 Revenue: \$0 (building phase)

PHASE 2: FIRST SALES (Week 5-10)

Goal: Sell 3-5 parcels, validate demand, prove the model

Marketing

- ☐ Facebook/Instagram ads — target: US, LATAM, Middle East
 - "Own US land for \$99 down, \$149/month"
 - Budget: \$500-1,000 test
- ☐ TikTok organic content (drone footage, parcel walkthrough)
- ☐ SEO pages per state/county
- ☐ Google Ads — "buy land in Texas no credit check"

Sales Process

- ☐ Lead comes in → auto email with parcel details
- ☐ Payment link → Stripe checkout
- ☐ Contract auto-generated with buyer info
- ☐ Deed held in trust until final payment (or contract for deed)

Metrics to Track

- Cost per lead (target: \$10-30)
- Lead to sale conversion (target: 5-10%)
- Average sale price
- Down payment collected
- Monthly recurring revenue (MRR)

Budget: \$1,500-3,000 (marketing) Target Revenue: \$1,000-3,000 MRR

PHASE 3: AI-POWERED SCALING (Week 11-20)

Goal: Automate parcel discovery, scale to 20-50 parcels

AI Parcel Discovery Engine

- ☐ Integrate id.land API or county GIS data
- ☐ Auto-scan tax auction listings across 10+ states
- ☐ AI scoring: location, buildability, road access, price vs market
- ☐ Alert system: "New parcel found — \$1,200 cost, estimated \$5,000 sale"
- ☐ Comparable sales analysis (auto-pricing)

Platform Upgrades

- ☐ Multi-language support (Spanish, Arabic, Portuguese)
- ☐ WhatsApp integration for international buyers
- ☐ Automated payment default handling:
 - Day 1 late: email reminder
 - Day 7: SMS + WhatsApp
 - Day 30: default notice
 - Day 60: repossession process
- ☐ Buyer referral program (\$50 credit per referral)

Scaling Operations

- ☐ Reinvest MRR into new parcels (self-sustaining flywheel)

- ☐ Hire VA for customer support (\$400-600/mo)
- ☐ Target: 5-10 new parcels per month from cash flow

Budget: Funded by MRR (self-sustaining) Target Revenue: \$5,000-15,000 MRR

PHASE 4: FULL AUTOMATION (Month 6-12)

Goal: 100+ parcel portfolio, fully automated pipeline

Advanced Features

- ☐ AI chatbot for buyer questions (24/7, multilingual)
- ☐ Auto-generated listing pages with drone imagery
- ☐ Dynamic pricing based on demand/season
- ☐ Investor dashboard (for partners — read-only financials)
- ☐ Mobile app for buyers (payment, contract, parcel map)

Portfolio Growth

- ☐ 100+ active parcels across 15+ states
- ☐ Diversified: desert, forest, mountain, farmland
- ☐ Price range: \$3,000-\$50,000
- ☐ Average margin: 40-60%

Revenue Projections

Month	Parcels	MRR	Cumulative Revenue
1	5	\$750	\$2,000
3	12	\$2,500	\$12,000
6	30	\$6,500	\$40,000
9	60	\$13,000	\$95,000
12	100	\$22,000	\$200,000+

Assumes avg sale \$8,000, avg monthly \$180, 30% default rate, reinvestment of cash flow

FINANCIAL MODEL

Unit Economics (Per Parcel)

Item	Amount
Acquisition cost	\$2,000-5,000
Due diligence / closing	\$200-500
Total cost	\$2,200-5,500
Sale price	\$5,000-15,000

Down payment	\$99-499
Monthly payment	\$79-299
Term	12-36 months
Gross margin	40-65%
Default rate	~30% (parcel returns to inventory)
Net margin after defaults	30-50%

Monthly Costs (Operational)

Item	Cost
LLC maintenance	\$0/mo (Wyoming)
Stripe fees	2.9% + \$0.30/tx
id.land subscription	\$20/mo
Hosting (Vercel)	\$20/mo
Marketing (scaled)	\$500-2,000/mo
VA support	\$400-600/mo
Property taxes (per parcel)	\$5-30/mo avg
Total fixed	~\$1,000-3,000/mo

INVESTOR STRUCTURE (RECOMMENDED)

Option A: Technology Partner Model (RECOMMENDED)

- Investor provides acquisition capital (\$10-50K)
- You provide: platform, technology, operations
- Revenue split: 60% investor / 40% you (technology + operations fee)
- Platform ownership: 100% yours
- Investor gets: read-only dashboard, monthly reports
- Exit: investor can sell their share, platform stays with you

Option B: Monthly Retainer + Performance

- Monthly technology fee: \$2,000-3,000/mo
- Plus 15-20% of net profit
- Platform ownership: 100% yours
- Minimum 12-month contract
- If investor leaves, platform stops

Key Protection Points

- Source code: never shared, hosted on your infrastructure
- Payment processing: through your Stripe account
- Domain & hosting: your accounts

- Customer relationships: managed through your platform
- Investor gets financial dashboard access only

TECH STACK

Component	Technology	Status
Landing page	Next.js + TailwindCSS	DONE
Admin dashboard	Next.js + Prisma	DONE
Financial analytics	Custom charts	DONE
Database	PostgreSQL (Neon/Supabase)	DONE
Hosting	Vercel	DONE
Payments	Stripe (TODO)	PLANNED
AI engine	OpenAI + custom scoring	PLANNED
CRM	Built-in	PLANNED
Email	Resend / SendGrid	PLANNED
WhatsApp	Evolution API	PLANNED

RISK MITIGATION

1. **Bad parcels:** Strict due diligence checklist, AI scoring before purchase
2. **High defaults:** Priced into model (30%), parcel returns to inventory = resold
3. **Legal issues:** State-specific land contracts, attorney-reviewed
4. **Market risk:** Land is tangible, doesn't go to zero, low volatility
5. **Competition:** Tech advantage — most competitors use Craigslist/Facebook manual posts
6. **Cash flow gap:** Start small, reinvest, don't over-leverage

IMMEDIATE NEXT STEPS (THIS WEEK)

1. Open Wyoming LLC
2. Set up Mercury bank account
3. Research 5 target counties for first purchases
4. Integrate Stripe into TerraLot checkout
5. Prepare investor pitch deck from this roadmap
